PROFESSIONAL SUMMARY

Junior Front-End Developer with hands-on experience in developing complete web applications using React.js, Firebase, and Tailwind CSS. Experienced in developing real-world products in production, focusing on modern interfaces, authentication, real-time data management, and API integration.

Expertise in creating and maintaining SaaS platforms, management applications, and digital solutions focused on user experience.

Languages

Spanish — Native
Portuguese — Fluent
English — Basic

PROJECTS IN PRODUCTION

DominoPro | Tournament Management Platform

2024 – Present

- Developed a complete web application for domino tournament management, handling everything from architecture to deployment.
- Implemented an automatic Swiss system, dynamic round generation, real-time ranking, and results management.
- Structured user authentication and data persistence using Firebase.
- Technologies: React.js, JavaScript ES6+, Tailwind CSS, Firebase Firestore, and Authentication.

NexusRePlay | Digital Signage SaaS Platform

2024 – Present

- Developed a SaaS platform for remote management of corporate TVs and digital signage networks.
- Implemented a playlist system, content scheduling, user authentication, and multi-tenant dashboard for resellers.
- Integrated media storage, interactive QR codes, and serverless functions using Firebase Cloud Functions.
- Added integration with Generative AI as a complementary feature for clients.
- Technologies: JavaScript, HTML5, Tailwind CSS, Firebase, Google Gemini API.

TECHNICAL SKILLS

Frontend

React.js · JavaScript (ES6+) · HTML5 · CSS3
Tailwind CSS · Bootstrap

Backend / BaaS

Firebase (Firestore, Auth, Storage, Cloud Functions)
REST API Integration

Tools

Git · GitHub · VS Code · Vite

Actively Learning

Programming logic · Data structures
UX/UI concepts · Accessibility
Node.js (basic)

Soft Skills

Self-learning · Empathetic communication
Teamwork · Organization
